

USYCA TEE CRICKET

Q. WHAT KIND OF INFRASTRUCTURE DO I NEED TO RUN A TEE CRICKET PROGRAM IN MY COMMUNITY?

A: A Tee Cricket program requires a flat/even surface of about 25-35 yards diameter. A gym, park, backyard, baseball field, soccer field, basketball court, tennis court, parking lot are all great places to run a program. If you have a full size cricket field, you can possibly run 4-6 games simultaneously.

Each Tee -Cricket Field will require 15 cones to mark the area of play. A set of stumps, a batting Tee, a tennis ball.

If the space is even smaller you can make further restrictions and customize the game.

Q. DOES THE COACHES NEED BE PROFICIENT IN CRICKET TO RUN A TEE CRICKET PROGRAM?

A: The coaches does not need to be cricket professionals but a basic understanding of the game is recommended. The league manager should keep a 60 minutes meeting with all the coaches to ensure they understand the objectives, rules and expectations. USYCA can also facilitate basic coaching program in your community if needed.

Considering the age group of the kids, a parent or guardian is required to be available at the facility at all times.

Safety of the children should be the highest priority.

Q. WHAT KIND OF PAPERWORK DO I NEED TO MAINTAIN?

- Player Registration form, which should have parent/guardian contact information.
- Player disclaimer form, which should have a statement of release against any claims.
- Facility Insurance and Facility Reservation document.

PLEASE CONTACT EMAIL@USYCA.ORG FOR QUESTIONS/CONCERNS.

Youth Cricket:
It's what we do.
